

BASKING BENEATH STATUE . . . are Deborah, Kimberly, and Carrie Brown, who came to get a preview glimpse of Robert Ortlieb's "Madonna and Child" at the Neighborhood Church, Palos Verdes Estates. The nine-foot figure will officially be unveiled for the public Sunday, April 12, from 3 to 5 p.m.

Neighborhood Church to Unveil Ortlieb's 'Madonna and Child'

A half-ton statue of the Madonna and Child, modeled of terra cotta clay by Robert Ortlieb, noted California sculptor, will be unveiled to art critics and the public Sunday, April 12, from 3 to 5 p.m. at The Neighborhood Church, Palos Verdes Estates.

The nine foot figure, which took eight months to complete, was dedicated at the church during the Lenten season. Weighing 1400 pounds before the three-sectioned statue was fired in a 2100 degree kiln, it

shrank to 1000 pounds during the fortnight of firing and cooling. The hollow sections are each supported by a sturdy armature of wood, steel and wire.

WINNER OF 20 awards in sculpture in the past 12 years, Ortlieb has exhibited in the Cincinnati Art Museum, the Denver Art Museum, the Dallas Museum of Fine Arts, the Creative Art Gallery, the California Palace of the Legion of Honor in San Francisco, the Pasadena Art Museum, the Los Angeles County Museum in addition to galleries abroad.

His most recent exhibits were at the Oakland Art Museum, the Santa Barbara Museum of Art, Westwood Community Methodist Church, and the E. B. Crocker Art Gallery in Sacramento last year. More recently he won first prize at the California State Fair and Exposition; several first awards at the Laguna Beach Art Gallery, and a cash award at the International Orange Show.

His work is represented in the permanent collections of: The Los Angeles County Fair Assn., The Achenbach Foundation (California Palace of Legion of Honor), Los Angeles High School, The Neighborhood Church, Culver City Presbyterian Church, and in private collections throughout the country.

Garden Checklist

By California Association of Nurserymen

1. Many rhododendrons are blooming—or will be soon—which means it's a good time to shop for these regal beauties.
2. As blooms stop on camellias, feed with acid-type fertilizer or liquid fish. Three or four alternate feedings with these can be made between now and late summer.
3. That fragrance you may have been noticing this month is likely Victorian Box (*Pittosporum undulatum*). It can be planted now for rapid growth and fragrance next year.
4. Keep a constant watch over new growth on roses. Haul out the spray gun at first sign of aphid and spray thoroughly, and follow with a regular spray program thereafter.
5. It's late for the other perennial vegetables (rhubarb and artichoke), but asparagus is still available in some areas and should go in right away.
